

# Kato 10w Dimmable LED White Downlight - Colour Changing

## Product Images

## Description

The Kato 10w Dimmable LED White Downlight - Colour Changing has the added 3C function with an aluminium face. With its IC4 rating it has excellent heat dissipation technology and suitable for almost any environment.

The Kato 10w Dimmable LED White Downlight - Colour Changing has the following Product Technical Information:

- Globes Specification:
  - LED 10w DC Integral SMD Board.
  - Colour Render Index (Ra) -  $\geq 84$ .
  - Rated at 20,000 hours usage.
  - Beam Spread is 120°.
  - Input Voltage - 240v AC.

- Lighting & Power Efficiency:
  - Consumption = 10w of Power.
  - Output = 60w of Light.
- Colour Changing & Lumen Output (via Dip Switch):
  - Warm White (3000K) - 850LM.
  - Cool White (4000K) - 850LM.
  - Daylight White (5700K) - 850LM.
- Dimming - Yes, Trailing Edge Dimmer.
- Frame Specifications:
  - Constructed from Aluminium & Polycarb.
  - Opaque Acrylic Lens.
  - Tilt - No.
  - Rotatable - No.
  - Corrosion Resistant - No.
  - IP Rating: IP44.
- Frame Dimensions:
  - Diameter - 113mm.
  - Cut Out - 90mm.
  - Depth - 60mm.
- LED Driver - Connected to the rear of the Downlight.
- 2Pin Flex & Plug *(Included)*.
- IC Rating - It has an IC-4 rating.
- Power Rating: 220-240v AC.
- ASA: Australian Standards Approved.
- Condition: Brand new in manufacturer's packaging.
